ALTERNATIVE NAMES FOR SCHOOL DISTRICTS

Wisconsin's 433 school districts are listed in the various sections of this publication in alphabetical order by a shortened form of the legal district name. However, because many school districts are also known by other, less formal names, you may not be able to locate the district in the place where you are looking for it. This cross-reference list should help.

SECTION A - STATEWIDE STATISTICAL SUMMARY TABLES

Statewide Summary Tables in Section A are compiled from detail information reported by local school districts and private schools each year. Statewide averages and summaries provide local school districts and other states a base for comparison purposes. Definitions of terms are provided in Section F (Glossary of Terms and Definitions).

If you have questions about the statewide summary tables in Section A, please contact Don Russell (608) 266-1746 or Roland Rockwell (608) 266-2840 of the Financial Aids Services Division.

SECTION C - COMPLETE ANNUAL SCHOOL COST PER MEMBER

Information on "complete annual school cost per member" is retrieved from actual financial data on Annual Reports filed by school districts for the school years 1979-80 and 1980-81 and from estimated financial data on Budget Reports filed by school districts for the school year 1981-82.

These figures are intended for inter-district cost comparisons but cannot indicate the extent or quality of the educational program from one district to another. In general, it is expected that higher per-pupil costs can be at least partially attributed to increased educational offerings. The DPI encourages people who want to compare costs to research the reasons for the cost differential and include this information in their publications.

The per-member figures are based on "complete annual school cost" and "basic membership". These terms and others are defined in Section F (Glossary of Terms and Definitions).

If you have any questions about Section C or need additional information or clarification, please contact the Bureau for Aids Administration and School Finance Services at (608) 266-2840.

SECTION D - DISTRIBUTION OF STATE-AID DOLLARS

Information on state aid paid during the 1980-81 school year is retrieved from records of payments made by the Department of Public Instruction. Each of the aid programs is briefly described on the next few pages. Definitions of terms are provided in Section F (Glossary of Terms and Definitions).

Payments of equalization aid are based on budgeted figures for 1980-81 plus an adjustment for overpayment or underpayment of 1979-80 equalization aid. When actual receipts and expenditures for 1980-81 are finalized, the 1980-81 equalization aid will be recalculated, and an adjustment will be made to 1981-82 aid.

If you have any questions about Section D or need additional information or clarification, please contact the Bureau for Aids Administration and School Finance Services at (608) 266-2840.

SECTION D - DISTRIBUTION OF STATE-AID DOLLARS

EQUALIZATION AID

Requirements

General aid for public elementary and secondary schools is determined under the provisions set forth in the statutes in the following statutes:

121.004	Definitions
121.07	General provisions; state aid computation
121.08	Payment of state aids; reductions
121.14	State aid for summer classes
121.155	General aid; cost controls

The appropriation for the payment of such funds is found in Statute 20.255(1)(cc).

Membership

For 1980-81 aids, Statute 121.004(8) defined "membership" as the 1980-81 basic membership or the average of the 1980-81 basic membership and 96.9% of the 1979-80 membership, whichever was greater. It is the membership, rather than the basic membership, which was used in general-aid computations in 1980-81.

Equalization

Under the provisions of Statute 121.06, the Department of Revenue annually determines, on a uniform basis, the property values (called "equalized valuations") of each school district in Wisconsin. For the 1980-81 school year, the equalized valuations of 1979 were used in computing general aid.

It is possible to determine the tax base available for the education of each child by dividing the district's equalized valuation by its membership. The resulting equalized valuation per member varies widely, from a low of $39,443 to a high of $456,917 for districts offering grades kindergarten through 12 in 1980-81. If the local tax base were the only source of revenue available to the local school districts the quality of education would likewise vary widely, depending on the ability of local districts to raise property taxes for the schools.

State general aid provides for equalization of the property tax base. Each pupil in K-12 districts is guaranteed a tax base of $195,900. If the district falls below that amount, state general aid makes up the difference.

Cost-Sharing

Statute 121.07 defines "shared cost" as:

> ...the sum of the school district general fund operational cost and the annual capital outlay, minus the operational receipts, plus the principal and interest payments on long-term indebtedness for the current school year. The sum of the principal and interest payments on long-term indebtedness included in shared cost shall not exceed $90 per member.

School districts establish their own educational programs, responding to local needs and desires. The level of the educational program determines the level of spending, that is, the shared cost. The state acts as a partner in funding the shared cost, paying general aid on an equalization basis as described above.

Suppose, for example, that a district has a shared cost of $2200 per pupil and an equalized valuation of $107,745 per pupil. The equalized valuation is 55% of the state-guaranteed valuation per pupil ($195,900), so the district will pay 55% of its shared cost ($1210) itself. The remaining 45% ($990) is paid by the state in the form of general aid.

The following diagram illustrates how the state and the local district each contribute a portion of the guaranteed valuation per pupil (the state's portion is called the "net guaranteed valuation"), and how each contributes a corresponding amount of the shared cost.

GUARANTEED VALUATION ($195,900 / member)		SHARED COST ($2,200 / member)
NET GUARANTEED VALUATION ($ 88,155 / member)	STATE SHARE (45%)	GENERAL STATE AID ($ 990 / member)
EQUALIZED VALUATION ($107,745 / member)	LOCAL SHARE (55%)	PROPERTY TAX ($1,210 / member)

General-Aid Formula

The formula for general state aid is as follows:

$$\text{General State Aid} = \text{Shared Cost} \times \frac{\text{Net Guaranteed Valuation}}{\text{Guaranteed Valuation}}$$

For the example above, this would work as follows:

$$\text{General State Aid} = \$2{,}200/\text{mem.} \times \frac{\$\ 88{,}155/\text{mem.}}{\$195{,}900/\text{mem.}}$$

$$= \$2{,}200/\text{mem.} \times 45\% = \$990/\text{mem.}$$

Because the ratio of the net guaranteed valuation to the guaranteed valuation can be expressed as a percent, the above formula is often called the "percentage method" of computing aid.

The same computation can be performed in a slightly different fashion:

$$\text{General State Aid} = \frac{\text{Shared Cost}}{\text{Guaranteed Valuation}} \times \text{Net Guaranteed Valuation}$$

$$= \frac{\$\ \ 2{,}200/\text{mem.}}{\$195{,}900/\text{mem.}} \times \$88{,}155/\text{mem.}$$

$$= 0.01123 \times \$88{,}155/\text{mem.} = \$990/\text{mem.}$$

The number 0.01123 in the above computation is called a "levy rate". In this case, it represents a tax of $0.01123 or 11.23 mills per dollar of equalized valuation. (A mill is 1/1000 of a dollar or 1/10 of a cent.) For this reason, the levy rate is sometimes called the "mill rate". While either the percentage method or the levy-rate method of computing state aid will produce the same results, the levy-rate method is the one specified by law.

It is interesting to note that the levy rate is based solely on the district's spending level (the shared cost per member) and the guaranteed valuation. Since the guarantee is the same for all districts, the only factor in the formula which changes from one district to another is the cost. This produces a general rule that districts which spend at the same level will tax at the same rate.

It is also interesting to note that the same levy rate may be applied to the three valuations discussed above to produce the corresponding amounts of money:

Guaranteed Valuation x Levy Rate = Shared Cost
$195,900/member x 0.01123 = $2,200/member
Equalized Valuation x Levy Rate = Property Tax
$107,745/member x 0.01123 = $1,210/member
Net Guaranteed Val. x Levy Rate = General State Aid
$88,155/member x 0.01123 = $ 990/member

That is, the state applies the same levy rate to its share of the guaranteed valuation as the district applies to its own equalized valuation. Together, the state and the districts form a partnership to support the education of public elementary and secondary pupils in Wisconsin.

Two Levels of Sharing

Up to this point, only one guaranteed valuation has been discussed. However, the law provides for two levels of state support and therefore two guaranteed valuations -- one for "low" costs and one for "high" costs. The $195,900 per pupil mentioned above is the guaranteed valuation for "low" or "primary" costs -- that part of the shared cost which falls below a ceiling equal to 110% of the previous year's state average shared cost per pupil. Since in 1979-80 the state average shared cost was $2041 per pupil, in 1980-81 the primary cost ceiling was 110% of $2041 or $2245 per pupil. "Secondary" costs consist of the shared cost above the primary cost ceiling. Thus, a district which had a shared cost of $2500 per member would have a primary cost of $2245 and a secondary cost of $255. The examples used previously involve a shared cost of $2200 per member, which is below the primary cost ceiling. In such a case, the district would have only primary costs, no secondary costs.

Just as the guaranteed valuation of $195,900 per member applies to the primary cost, so there is a secondary guaranteed valuation per member which is applied to the secondary cost. According to Statute 121.07, the secondary guarantee is equal to the state-average equalized valuation per pupil rounded to the nearest hundred dollars. During 1980-81, the value $119,600 was used as the secondary guaranteed valuation per member.

The secondary guarantee is applied in just the same way as the primary guarantee. The secondary shared cost, divided by the secondary guarantee, produces a secondary levy rate. When the secondary levy rate is applied to the district's equalized valuation, it produces a property tax to help offset the secondary cost. For example, if a district had an equalized valuation of $107,745 per member, as in previous examples, but had a shared cost of $2500 per member, it would have a secondary cost of $255 per member. Its secondary state aid would then work out as follows:

$$\text{Secondary Aid} = \frac{\text{Secondary Cost}}{\text{Secondary Guarantee}} \times \text{Secondary Net Guaranteed Val.}$$

$$= \frac{\$\ \ \ 255/\text{mem.}}{\$119{,}600/\text{mem.}} \times \$11{,}855/\text{mem.}$$

$$= 0.00213 \times \$11{,}855/\text{mem.} = \$25/\text{mem.}$$

This amount would be in addition to $1010 per member in primary aid (on the primary cost of $2245), worked out as described earlier. Thus, the district would receive a total of $1035 per member in state aid and would have to raise the remaining $1465 per member itself. To do so would result in a levy rate of 13.60 mills.

$$\text{Levy Rate} = \frac{\text{Property Tax}}{\text{Equalized Val.}} = \frac{\$\ \ 1{,}465/\text{mem.}}{\$107{,}745/\text{mem.}} = 0.01360$$

Not surprisingly, this is the same value produced by adding together the primary and secondary levy rates of 0.01147 and 0.00213, respectively. Therefore, the general rule continues to hold true: districts which spend at the same level will tax at the same rate.

There is an aspect of secondary aid which deviates from the corresponding treatment of primary aid, though. A district with an equalized valuation of $130,000 per member and a shared cost of $2500 per member would have a primary aid of $755 per member partially offset by a negative secondary aid of $22 per member, for a total aid of $733 per member. Note, though, that its tax rate will continue to be the same as all the other districts which are also spending $2500 per member.

UHS and Elementary Districts

There were 433 school districts in Wisconsin in 1980-81. Of that number, 373 operated kindergarten through Grade 12. Another 10, called union high school (UHS) districts, operated only Grades 9 through 12. The remaining 50 districts are called elementary districts. They operated kindergarten through Grade 8 and fell within the same geographic area served by the UHS districts.

Each type of district has its own guarantee, as indicated in the table below:

TYPE OF DISTRICT	PRIMARY GUARANTEE	SECONDARY GUARANTEE	PRIMARY CEILING
K-12	$195,900	$119,600	$2245
UHS	$587,700	$358,800	$2245
K-8	$293,900	$179,400	$2245

Aid Adjustments

The statutes for 1980-81 provided for aid to be paid during the school year on the basis of budgeted school expenditures, as reported by districts on the Budget Report (due October 1 of each year). Then when actual receipts and expenditures became known and reported on the Annual Report (due August 1 each year), the aid was recomputed and an adjustment made for overpayment or underpayment. Figures reported in Section A Table 8 and in Section D of this publication include adjustments made for the 1979-80 school year. Adjustments for 1980-81 payments will be made in 1981-82 and will involve not only actual receipts and expenditures but also refinements of the primary ceilings and secondary guarantees based on more recent information.

TYPE OF DISTRICT	PRIMARY GUARANTEE	SECONDARY GUARANTEE	PRIMARY CEILING
K-12	$195,900	$119,700	$2253.02
UHS	$587,700	$359,100	$2253.02

INTEGRATION AID

The authorization for state aids to districts for pupil transfers resulting from a plan to reduce racial imbalance (inter- or intra-district) is found in Subchapter 6 of Chapter 121 of the statutes. The appropriation is listed under Statute 20.255(1)(cc). The integration plan outlined in Subchapter 6 involves transfers of minority (or nonminority) students from a school where at least 30% of pupils enrolled are minority (or nonminority) to a school where less than 30% of pupils enrolled are minority (or nonminority). In the case of intra-district integration transfers, each transferred pupil is weighted at 1.325 in the equalization-aid formula, and the additional aid generated is integration aid. In the case of inter-district transfers, the district of residence continues to count the pupil as 1.0 for equalization-aid purposes (which is not integration aid), and the district of attendance is paid state aid amounting to approximately the cost of educating each transferred pupil. As an incentive to participate fully in the program, inter-district aid is increased by 20% if incoming transfer pupils exceed 5% of the district's enrollment.

SPECIAL-ADJUSTMENT AID

Special-adjustment aid is paid under the provisions of Statute 121.10, with the appropriation listed under Statute 20.255(1)(fs). Statute 121.10 provides that a district's aid will be increased by half of the difference between the equalization and special-adjustment aid received in the previous school year and the equalization-aid eligibility for the current school year, if the district meets the following conditions:

(1) It suffered an aid loss.

(2) Its change in equalized valuation per member for the current year over the previous year is more than the state average change.

(3) Its equalized valuation is less than the primary guaranteed valuation.

(4) Its secondary shared cost is less than 20% of its primary shared cost, if its equalized valuation is more than the secondary guaranteed valuation.

SUPPLEMENTAL AID

This type of aid is available to school districts which contain a tax-incremental area, as defined in Statute 66.46. The amount of this aid, as established under Statute 121.085, is the difference between the amount of equalization aid that would be paid using the full value of all taxable property and the amount that would be paid if the equalized valuation of the tax-incremental area were not allowed to exceed the value it had when it was created. The appropriation is found under Statute 20.255(1)(fo).

EXCESS TAX BASE LOSS REIMBURSEMENT

Excess tax base loss reimbursement is authorized under Statute 121.11; the appropriation is listed under Statute 20.255(1)(fk). This type of aid is available to school districts which suffer an excess loss in tax base due to fractional assessment of personal property under Statute 70.57(5). An "excess" loss is a reduction of property value exceeding 5.4% of the total property value of the district. The state pays to such school districts the amount computed by multiplying the excess tax base loss by the shared cost levy rate. In 1980-81, the state paid 80% of the amount computed. The percentage of the computed amount will decrease annually through 1983-84. No aid will be paid under this section after the 1983-84 school year.

PUPIL-TRANSPORTATION AID

State transportation aids are determined under the provisions of Statute 121.58; the appropriation is found in Statute 20.255(1)(fg). (Beginning in 1981-82, aids paid to public school districts for transporting pupils to non-public schools will be listed in Statute 20.255(4)(fg).)

School districts which furnish transportation to and from public and private schools are entitled to receive state aid at the following rates:

DISTANCE TRANSPORTED	REGULAR YEAR	SUMMER SCHOOL
0-2 miles (hazardous area)	$12/pupil	-----
2-5 miles	$30/pupil	$4/pupil
5-8 miles	$45/pupil	$6/pupil
8-12 miles	$60/pupil	$6/pupil
12-15 miles	$68/pupil	$6/pupil
15-18 miles	$75/pupil	$6/pupil
over 18 miles	$85/pupil	$6/pupil

Distances are measured from the pupil's residence to the school attended, following the shortest commonly traveled route. Half payment is made for pupils transported less than 91 days (regular year) or 16 days (summer school).

In the 1980-81 school year, state aid was paid for about 506,846 children (447,899 public and 58,947 private). However, school districts also transported without benefit of transportation aid about 35,061 children (31,893 public and 3,168 private) who lived less than 2 miles from school. School districts are reimbursed on the number of children transported during the prior year. The 1980-81 transportation aid is based on the number of children transported in the 1979-80 school year.

STATE TUITION PAYMENTS

State payment of tuition for pupils is authorized under Statute 121.79:

121.79 Tuition payments by state. **(1)** The state shall pay tuition from the appropriation under s. 20.255 (1) (cf) for children attending public schools in the following cases:

(a) For children in children's homes.

(b) For children of parents employed at and residing on the grounds of a state or federal military camp, federal veteran hospital or state charitable or penal institution.

(c) For children in the care, custody or control of the department of health and social services residing at camp Flambeau in Winter, Wisconsin, who are enrolled in nearby local school districts.

(d) For children in foster homes, and beginning in the 1978-79 fiscal year, for claims incurred in the 1977-78 school year and thereafter, for children in group homes if:

1. The foster or group home is located outside the school district in which the child's parent or guardian resides; and
2. The foster or group home is exempted [from property taxation] under s. 70.11.

SCHOOL-LIBRARY AID

(FROM THE COMMON SCHOOL FUND)

The source of authority for the Common School Fund is Article 10 Sections 4 and 5, Wisconsin State Constitution, and Statute 43.70; the appropriation is found under Statute 20.255(3)(s). The income from the Common School Fund is distributed on the basis of the total number of children between the ages of 4 and 20 residing in the school district as of June 30 of the year before payments are made. (In cities, the census date is May 30, rather than June 30.) The total number of children so reported in 1980 was 1,198,258. This number was divided into the Common School Fund balance of December 1, 1980 ($4,847,000) to produce a per-capita payment of $4.04 rounded downward to the penny. When distributed at this rate, the school-library aid amounted to a total of $4,840,962.

DRIVER-EDUCATION AID

(FROM THE HIGHWAY FUND)

The authorization for driver-education aid is found in subchapter 3 of Chapter 121 of Wisconsin Statutes; the appropriation is listed in Statute 20.255(1)(r), in which funds are transferred from the Highway Fund (chauffeur's license fees) to the Department of Public Instruction. The funds are used to encourage school districts to promote effective driver training programs. In 1980-81, school districts received $40 for each pupil who successfully completed the classroom and behind-the-wheel phases of the driver-education program.

HANDICAPPED CHILDREN EDUCATION AID

There are 10 major areas of state aid for school districts, CHCEBs and CESAs providing special programs for children with exceptional educational needs:

(1) physical or orthopedic disability,
(2) mental retardation or other developmental disability,
(3) hearing impairment,
(4) visual disability,
(5) speech and language disability,
(6) emotional disturbance,
(7) learning disability,
(8) pregnancy (including up to 4 months after termination of the pregnancy and including summer vacation).
(9) special-education coordinators, and
(10) homebound instruction.

In addition, the state reimburses school psychologist and social-worker costs. The authorization for handicapped aid is found in Statute 115.88, and the appropriation is listed under Statute 20.255 (1)(bd).

The plan of services for each special-education class must be approved by the DPI. Classes for the physically handicapped include treatment and therapy as well as academic learning.

For 1980-81, the reimbursement by the state was based upon the prior year's cost of services provided by the district, CHCEB, or CESA including salaries and benefits for teachers, aides, and therapists, special equipment, psychometric services, and transportation. The state reimbursed approved program costs at the rate of 70%, except that school psychologist and social-worker services were reimbursed at 33-1/3%, 50%, or 70%, depending on the amount of time spent with handicapped children. The state also paid 100% of the room and board cost for handicapped pupils placed in another school district on a tuition basis.

SPECIAL EDUCATION NEEDS GRANTS

(SEN)

Special educational needs (SEN) grants were made to public school districts and to non-public, non-profit, non-sectarian educational agencies for the education of pupils who have, or are likely to have, low levels of academic achievement, especially in relation to social and economic factors. This program was authorized under subchapter 5 of Chapter 115; the appropriation was listed under Statute 20.255(1)(dd). The program was repealed effective in 1981-82.

BILINGUAL/BICULTURAL AID

A bilingual/bicultural-education program is designed to improve the comprehension, speaking, reading, and writing ability of a limited-English-speaking pupil in the English language, so that the pupil will be able to perform ordinary classwork in English. Any school district operating such a program is eligible to receive state aid equal to 70% of the approved expenditures attributable to the program. The authorization for the program and aid is established in Subchapter 6 of Chapter 115 of the statutes, and the appropriation is listed under Statute 20.255(1)(bb).

ALCOHOL AND OTHER DRUG ABUSE GRANTS

Statute 115.36(3) authorizes the DPI to award grants to public school districts for demonstration projects designed to assist **minors** to avoid or overcome problems resulting from the abuse of alcohol and other drugs. Local districts must match 20% of the DPI grant from local sources. The appropriation is listed under Statute 20.255(1)(bg).

MATCHING SCHOOL-LUNCH AID

Statute 115.34 authorizes the state to make payments to school districts for school lunches provided to children in the prior year. The payments equal the state's obligation to match federal aid under 42 USC 1751 *et seq*. The appropriation is found under Statute 20.255 (1) (fe). Amounts paid to non-public agencies are not shown.

ELDERLY FOOD-SERVICE AID

Statute 115.345 authorizes aid payments for elderly food service. School districts operating an approved food-service program for the elderly may be reimbursed at the rate of $0.20 per meal for reasonable costs incurred excluding capital-equipment costs. The appropriation is listed under Statute 20.255 (1) (fe).

SECTION E - ESTIMATED GENERAL-SCHOOL-AID ELIGIBILITY

Information on general-school-aid eligibility for 1982-83 is retrieved from financial data on Annual Reports filed by school districts for the school year 1980-81 and from equalized property valuations certified by the Wisconsin Department of Revenue for the calendar year 1980. General school aid is computed through a fairly complicated process which is briefly explained on the next few pages. Since there have been significant changes in the general-school-aid program since last year, it is strongly suggested that users of the data read the accompanying explanation carefully.

If you have any questions about Section E or need additional information or clarification, please contact the Bureau for Aids Administration and School Finance Services at (608) 266-2840.

SECTION E - ESTIMATED GENERAL-SCHOOL-AID ELIGIBILITY

INTRODUCTORY COMMENTS

General aid is financial assistance to a school district which may be employed as the district sees fit, as opposed to categorical aid, which must be used for a specific purpose or category of program. Categorical aids have almost always been paid on a reimbursement basis in the school year following the year in which the services were provided. Beginning in 1981-82, general aid will also be based on prior-year data.

State aid will cover approximately 37% of complete annual school cost (CASC) in 1981-82. General aid alone will cover 30% of CASC. The largest single form of general aid (indeed, the largest single appropriation in the entire state budget) is equalization aid, which covers 27½% of CASC. Other forms of general aid are supplemental aid, which is itemized within this section, and excess tax base loss reimbursement, which is not.

SOURCES OF DATA

Figures for school-district expenditures and receipts shown in this section are based on the 1980-81 Annual Reports filed by school districts as of 1981 August 1. Subsequent revisions due to audits required under Statute 120.14 have been included as well. Membership figures are based on the 1980-81 Budget Reports filed by school districts as of 1980 October 1, also as subsequently revised by audits. Equalized valuations are based on the assessment of 1980 January 1, as certified by the Wisconsin Department of Revenue in 1981 June.

In the case of some districts for which Annual Report data were not filed on time or were incomplete, data on expenditures and receipts were taken from the 1980-81 Budget Report, as indicated by the word "BUDGET" on the same line as the district name.

STATEWIDE FACTORS

The following factors apply to all districts in the computation of general school aid.

Guaranteed Valuation per Member. The state, in Statute 121.07 (7), guarantees a minimum tax base to support the education of each child in the state. The primary guarantee supports costs up to the primary ceiling cost per member (described below), and is written into the law; the secondary guarantee supports costs above the primary ceiling cost per member, and is defined in terms of the state average equalized valuation per member. Values by type of district are:

PRIMARY	TYPE	SECONDARY
231,000	K-12	135,200
693,000	UHS	405,600
346,500	K-8	202,800

Primary Ceiling Cost per Member. Statute 121.07 (6) defines this value as 110% of the state-average shared cost per member for the year prior to the year from which cost and membership figures are taken. Using $2,048.20 as the 1979-80 figure produces:

$2,253.02

Debt-Service Maximum Sharable Cost. The shared cost consists of the net cost of the general fund plus the net cost of the debt-service fund of the school district. However, Statute 121.07 (6) places an upper limit on the amount of cost per member from the debt-service fund subject to sharing. The limit is:

$90

Cost-Control Limitation. Statute 121.91 (1) limits the growth in the controllable cost per member from one year to the next to:

10.5%

Minimum Allowable Cost Increase. Statute 121.91 (1m) allows districts spending below the state average to increase their controllable cost per member from one year to the next by the above percentage times the state-average controllable cost per member for the prior year. Using $1,974.93 as the 1979-80 figure produces:

$207.37

Cost-Control Membership Cutoff Point. For purposes of multiplying the allowable cost per member times the number of members in a school district, Subchapter 7 of Chapter 121 of the statutes allows districts to use the average of the current- and prior-year basic membership, up to a point. That point, defined in Statute 121.90 (2) as a percentage of the prior-year basic membership, is:

102%

Thereafter, the cost-control membership is the current-year basic membership minus 1% of the prior-year basic membership.

EXPLANATION OF COLUMN HEADINGS

SCHOOL COST is one of several types of expenditure made by a school district, as explained below under "Explanation of Line Headings".

COST/MEM for any given line is the school cost shown on that line divided by the number of members shown on that line.

STATE AID for any given line is the aid computed to share the cost shown on that line or as otherwise noted below under "Explanation of Line Headings".

AID/MEM for any given line is the state aid shown on that line divided by the number of members shown on that line.

LEVYRT for any given line is the school cost minus the state aid on that line, divided by the equalized valuation on that line, and multiplied by 1000 to produce a rate expressed in mills of tax per dollar of equalized valuation.

EQZD VALUATION is one of two figures reflecting the inclusion or exclusion of certain types of property. All districts start with a figure which reflects assessment of personal property at 30% of true value and inclusion of the incremental value above the base established for any tax-incremental-finance (TIF) district within the boundaries of the school district. Some districts have a second value, which also has personal property assessed at 30% but which has TIF increments excluded.

MEMBERS are pupils counted for state-aid purposes. The figure shown is for basic membership. Not shown in this section is the cost-control membership; however, the cost-control membership has figured into the computation of the excess cost (where it occurs) and thereby indirectly affects the aid computation.

EV/MEM for any given line is the equalized valuation shown on that line divided by the number of members shown on that line. This is the figure which is compared to the primary and secondary guaranteed valuations per member to determine how well the district is able to finance its own costs.

EXPLANATION OF LINE HEADINGS

The first line for a school district gives the school district name and code number, the type of district (kindergarten through Grade 12 [K-12], secondary or union high school [UHS], or elementary [K-8]), the date on which data for the district were last updated, the source of data for 1980-81, and the county code number and name.

PRIMARY cost is the part of shared cost which falls below the primary ceiling cost. The shared cost consists of the net cost of the general fund (except any amount in excess of cost-control limitations) plus the net cost of the debt-service fund (except any non-shared portion over $90 per member).

SECONDARY cost is the part of shared cost not included under primary cost.

MINIMUM is an arithmetic means of bringing a negative value for aid computed under the primary and secondary levels up to the statutorily specified minimum level of zero. The levy rate shown on this line will always be negative, since the effect of cancelling negative aid is to reduce the local property-tax obligation.

TIF (tax-incremental-finance) or supplemental aid, paid under the provisions of Statute 121.085, is the additional amount of aid generated by using an equalized valuation with the TIF increment (if any) excluded. The lower tax base means that the district is less able to finance its own costs and is in need of additional state aid.

NON-SHARED cost is that part of the net cost of the debt-service fund which exceeds the $90 per member subject to sharing by the state. No aid appears on this line, since these costs are, by definition, ot shared.

EXCESS cost is that part of the net cost of the general fund which exceeds the cost-control maximum under Subchapter 7 of Chapter 121 of the statutes. No aid appears on this line, since Statute 121.155 prohibits the sharing of excess cost. However, the levy rate shows the effect of the district paying for such costs out of the local property tax. Districts are allowed to file appeals for exemption or requests for adjustments with the state superintendent, or to conduct local referenda, to cause the excess cost to be shifted into the shared cost, and this section reflects the results of such shifting in 1980-81.

TOTAL cost is the sum of the primary cost and (if any) the secondary, non-shared, and excess costs. Total aid is the sum of the primary aid and (if any) the secondary, minimum, and TIF aids. Other figures on this line are computed as indicated under "Explanation of Column Headings".

MISCELLANEOUS

Rounding of individual items may mean that they will not add exactly to the totals shown.

Levy rates are of several different types. (1) The required levy rate is the shared cost divided by the guaranteed valuation at each level of sharing. (2) The indicated levy rate (shown herein) is the cost minus the aid for any given line divided by the *prior-year* equalized valuation shown on that line; by law, aid computations must be based on prior-year valuations. (3) The actual levy rate—which may reflect costs or receipts not shown in this section or the district's decision to alter its cash balance—is the amount of property tax levied divided by the *current-year* equalized valuation; by law, local taxes must be levied based on current-year valuations. The actual levy is also sometimes quoted on the basis of assessed valuation, which is generally a lower figure than equalized valuation and hence produces a higher levy rate; assessed-valuation levy rates are not comparable from one municipality to another and so are of limited use in publications like this one.

COST - in general, an expenditure for goods (supplies, materials, equipment, land, buildings) or services (salaries, benefits, utilities, professional fees). In determining costs, care must be taken to avoid double-counting. For example, if a school building is financed from borrowed money, the total cost should include either the payment to the building contractor or the repayment of the borrowed money, but not both. Similarly, if a school district spends money for a school-lunch program out of the food-service fund and also transfers money from the general fund to the food-service fund to help pay for the school-lunch program, it should not count the transfer as an additional cost. Depending on the grouping being examined, a given expenditure can be a cost in one case but not in another. For example, if one looks at a single school district, payments by that district to other school districts are counted as costs, since they are not otherwise counted by that district. If, however, one looks at the total of expenditures for all school districts in the state, it is necessary to subtract out the interdistrict transfers, or else the same cost would be reported by two different districts. There are many different ways in which costs can be assembled for various purposes. The following are the ones most often used in Wisconsin school districts:

Gross Cost - The sum of all non-duplicative expenditures of a fund or a school district.

Net Cost - The gross cost of a fund or a school district minus costs paid for by certain receipts (typically federal aid, state categorical aid, and local non-tax receipts) of that fund or district.

Complete Annual School Cost (CASC) - The gross cost in any given school year of the general, special-project, debt-service, and food-service funds, plus the net cost of the building fund (subtracting out costs paid for through long-term borrowing, which are already recorded in the debt-service fund). In Section A Table 7 and in Section C of this publication, the CASC also reflects the subtraction of costs paid for by incoming transfers from other school districts.

Partial Annual School Cost (PASC) - The CASC minus costs paid for by federal aid and local non-tax receipts.

Sharable Cost - The cost which must be paid by a combination of property taxes and state general aid; equivalent to the PASC minus costs paid for by state categorical aid; also equivalent to the net cost of the general fund plus the net cost of the debt-service fund.

Excess Cost - The part of the net cost of the general fund of a school district which is in excess of the amount allowed under cost controls.

Non-Shared Cost - The part of the net cost of the debt-service fund of a school district which is in excess of $90 times the general-aid membership.

Shared Cost - The cost used as the basis for computing state general aid; equivalent to the sharable cost minus the excess and non-shared costs.

Primary Ceiling Cost - 110% of the prior-year state-average shared cost per member multiplied by the district's general-aid membership.

Primary Cost - That portion of the shared cost which is below the primary ceiling cost and in which the state shares using the primary guaranteed valuation per member.

Secondary Cost - That portion of the shared cost which is above the primary ceiling cost and in which the state shares using the secondary guaranteed valuation per member.

Replacement Cost - The cost of replacing a capital object with another of a new material of like kind and quality in a given time and place.

Unit Cost - The cost of a function, activity, or service divided by the total number of units for which the function, activity, or service was provided.

On some days the school plant may be closed and student body as a whole engaged in school activities outside the school plant under the guidance and direction of teachers. These terms mean the following (Also see "appraisal", "appreciation", and "depreciation".):

Assessed Valuation - The property valuation determined by the municipal (city, village, town, or county) assessor as of January 1 in any given year. It is important that property of equal value be assessed at equal amounts, but it is not necessary that the amounts reflect the true sale value of the property.

Equalized Valuation - The assessed valuation multiplied by an adjustment factor computed by the Wisconsin Department of Revenue for each type of property in each taxing district, designed to cause each type of property to have comparable value regardless of local assessment practices. The objective is to have equalized valuation reflect the fair market value of each piece of property (IE: the value that would be agreed on between a willing buyer and a willing seller).

Tax Incremental Finance (TIF) Increment - The growth in equalized valuation of property within a TIF district above the base-level equalized valuation of the TIF district at the time it was created. Property taxes on the TIF increment which would normally go to school districts, counties, VTAE districts, etc. instead go to the municipality which created the TIF district to help that municipality pay for the cost of urban renewal within the TIF district.

No distinction is made between the terms "student" and "pupil". A pupil may receive instruction in a school facility or in another location, such as at home or in a hospital. Instruction may be provided by direct pupil-teacher interaction or by some other approved medium such as television, radio, telephone, and correspondence.

PUPIL COUNT - One of the following methods of determining the number of pupils in a class, school, or school district (Also see "school census".):

Attendance - The number of pupils present on a given school day.

(3) Kindergarten pupils must be at least five years old on September 1 to be counted, and are counted as half-pupils. (4) Handicapped prekindergarten pupils aged 3 through 5 are counted as half-pupils. (5) Only district residents can be counted in membership. (6) A pupil enrolled in a program operated by a CESA is counted by the district of residence. (7) A pupil concurrently enrolled in the school district and a CHCEB is counted by the district of residence. (8) A pupil for whom the district of residence pays tuition or similar charges is counted by the district of residence. (9) A pupil who transfers to another district as part of a program to promote racial and cultural balance is counted by the district of residence. (10) A pupil for whom the state pays tuition is counted by the district of attendance.

(3) For aids paid in 1982-83 and thereafter, the prior-year summer ADM equivalent plus the average of the prior-year memberships on the third Friday in September and the second Friday in January.

Cost-Control Membership - (1) For most districts, the average of the current-year and prior-year basic memberships. (2) For districts where the basic membership is increasing faster than 2% a year, the current-year basic membership minus 1% of the prior-year basic membership.
